# Message from the Editor-in-Chief

C (ISSN 2311-5629) is a publication that seeks to cover the whole field of carbon research under an open access policy that charges minimal fees to authors without compromising either publishing standards or quality. It is open to anyone wanting to disseminate their new exciting high profile work. Open access significantly enhances the efficiency and efficacy of scientific communication and breaks down boundaries, so as to allow access to readers from around the world. We look forward to receiving your submission.

---

## Editor-in-Chief

Prof. Dr. Craig E. Banks

---

## Aims

C (ISSN 2311-5629) is an international and cross-disciplinary, open access journal of scientific studies related to all aspects of carbon materials, carbon research, and their applications. It publishes original peer-reviewed research articles, comprehensive reviews, and short communications as well as Special Issues on particular subjects.

The aim of C is to encourage scientists to publish their experimental and theoretical results in as much detail as possible. Full experimental, theoretical, and computational details should be provided so that the results can be reproduced. In addition, the journal has the following features:

- Manuscripts regarding new and innovative research proposals and ideas are particularly welcome;
- Electronic files supplying details of calculations and experimental procedures as well as picture and video files can be uploaded as supplementary materials.

---

## Scope

Areas of interest include, but are not limited to, the following topics:

- Carbon Materials and Carbon Allotropes
- CO<sub>2</sub> Utilization and Conversion
- Carbon Cycle, Capture, and Storage
- Carbon Skeleton
- Combustion Emissions
- Environmental Applications
- Health, Biological, and Medical Applications
- Physical Properties and Characterization of Carbon

---

## Author Benefits

### Open Access

Unlimited and free access for readers

### No Copyright Constraints

Retain copyright of your work and free use of your article

### Thorough Peer-Review

### Discounts on Article Processing Charges (APC)

If you belong to an institute that participates with the MDPI Institutional Open Access Program

### No Space Constraints, No Extra Space or Color Charges

No restriction on the maximum length of the papers, number of figures or colors

### Coverage by Leading Indexing Services

ESCI (Web of Science), Scopus, CAPlus / SciFinder, and other databases

### Rapid and Thorough Peer-Review

A first decision is provided to authors approximately 19.8 days after submission; acceptance to publication is undertaken in 3.6 days (median values for papers published in this journal in the first half of 2024)
