# Message from the Editor-in-Chief

*Micro* is devoted to academic researchers, working mainly in the fields of micro-/nano-science and micro-/nano-technology, who want to spread their findings in the scientific community. Topics include microscale or nanoscale research and applications in physics, chemistry, materials, biology, medicine, food, environment technology and engineering. Comprehensive reviews, original scientific research articles and communications are released on the internet immediately after acceptance. We are pleased to welcome you as our authors.

---

## **Editor-in-Chief**

Prof. Dr. Eiichi Tamiya

## **Aims**

*Micro* (ISSN 2673-8023) is an international and multidisciplinary scholarly open access journal. It publishes comprehensive reviews, original scientific research articles and communications on microscale and nanoscale research and applications in physics, chemistry, materials, biology, medicine, food, environment technology, engineering, etc. Thus, theoretical and experimental articles will be welcomed.

Our aim is to encourage scientists to publish their experimental and theoretical research in as much detail as possible. Full experimental or methodical details, or both, must be provided for research articles. Computed data or files regarding the full details of the experimental procedure, if unable to be published in a normal way, can be deposited as supplementary material.

---

## Scope

- Synthesis, characterization, and manipulation of nanomaterials
- Micro- and nano-scale mass and heat transfer
- Micro- and nano-fluidics
- Micro- and nano-particles
- Micro- and nano-optics and photonics.
- MEMS, NEMS
- Micro- and nano-electronic sensors and devices
- Micro- and nano-analysis, reactors, and separations
- Micro- and nano-fabrication
- Nanomedicine: Diagnostics, Imaging, Therapy, and Drug Development.
- Nanotoxicity
- Nanoinformatics
- Nanobiology, biotechnology, and bioengineering

---

## Author Benefits

### Open Access

Unlimited and free access for readers

### No Copyright Constraints

Retain copyright of your work and free use of your article

### Thorough Peer-Review

### Discounts on Article Processing Charges (APC)

If you belong to an institute that participates with the MDPI Institutional Open Access Program

### No Space Constraints, No Extra Space or Color Charges

No restriction on the maximum length of the papers, number of figures, or use of colors

### Coverage by Leading Indexing Services

Scopus, ESCI (Web of Science) and other databases

### Rapid Publication

A first decision is provided to authors approximately 22.4 days after submission; acceptance to publication is undertaken in 3.8 days (median values for papers published in this journal in the first half of 2024)
