Message from the Editor-in-Chief

Since its foundation in 2009, *Polymers* has developed into an internationally renowned, extremely successful open access journal. The editorial team and the editorial board dedicatedly combine open-access publishing and high-quality rigorous peer reviewing. The performance of the journal has proven this strategy to be well-suited and highly successful. This is reflected in the increasing impact factor of *Polymers*, the most recent one being 4.7.

I would like to invite you to contribute to the success of the journal by sending us your high quality research papers. We would be pleased to welcome you as one of our authors.

Aims

Polymers (ISSN 2073-4360) is an international, open access journal of polymer science. It publishes research papers, communications and review articles.

Polymers provides an interdisciplinary forum for publishing papers which advance the fields of (i) polymerization methods, (ii) theory, simulation, and modeling, (iii) understanding of new physical phenomena, (iv) advances in characterization techniques, and (v) harnessing of self-assembly and biological strategies for producing complex multifunctional structures. Scientists are encouraged to publish their experimental and theoretical results in as much detail as possible. There is no restriction on the maximum length of the papers. The full experimental and computational details must be provided so that the results can be reproduced.

Scope

- Polymer Chemistry
- Polymer Analysis and Characterization
- Polymer Physics and Theory
- Polymer Processing and Engineering
- Polymer Applications
- Biobased and Biodegradable Polymers
- Circular and Green Polymer Science
- Polymer Composites and Nanocomposites
- Polymer Networks
- Polymer Membranes and Films
- Polymer Fibers
- Smart and Functional Polymers
- Innovation of Polymer Science and Technology

Author Benefits

Open Access

Unlimited and free access for readers

No Copyright Constraints

Retain copyright of your work and free use of your article

Thorough Peer-Review

Discounts on Article Processing Charges (APC)

If you belong to an institute that participates with the MDPI Institutional Open Access Program

Journal Rank

JCR - Q1 (Polymer Science) / CiteScore - Q1 (General Chemistry)

Coverage by Leading Indexing Services

Scopus, SCIE (Web of Science), Ei Compendex, PubMed, PMC, FSTA, CAPIus / SciFinder, Inspec, and other databases

Rapid Publication

A first decision is provided to authors approximately 14.5 days after submission; acceptance to publication is undertaken in 3.4 days (median values for papers published in this journal in the first half of 2024)
