## **RECTOR'S REPORT**

Ms. Smith thanked board members for their support during her first year as rector. During this past year she tried to incorporate tours and presentations into the meeting schedules to highlight the good work of the University and plans to continue that in the upcoming year. She welcomed suggestions from the board members for the quarterly meetings.

## **PRESIDENT'S REPORT**

In his report to the Board, President Broderick noted the memorial service that was held at ODU for the victims of the Virginia Beach shooting, many of whom had ties to the University. Plans are underway for the construction of a permanent memorial on campus in their remembrance.

The President commented on the current enrollment situation. While the largest freshman class will enroll in the fall, the transfer market has been declining and graduate enrollment has remained level or increased slightly.

In his University update, President Broderick reported that the University was designated as a National Center of Academic Excellence in Cyber Operations by the National Security Agency. The program demonstrated the faculty research grants and publications related to the field of cyber operations and the capability to provide undergraduate curricula that satisfy necessary academic requirements. Only twelve programs in the country have this designation. In addition, Old Dominion University joined seven other universities as full members of the National Institute of Aerospace, a recognized leader in aerospace research, education and outreach. NIA leads and conducts research with government, academia and industry partners.

The School of Nursing was awarded a \$1.45 million Health Resources and Services Administration (HRSA) grant for Veterans education and training as primary care RNs (VET-PRN). Research will focus on preparing a knowledgeable, skilled and sustainable veteran-focused primary care nursing workforce.

The LeADERS Program connects students to enriching courses and active-learning experiences resulting in a competitive edge in their chose careers. Students complete three credit hours in course designations that include: **Leadership, Academic Internship, Diversity, Entrepreneurship, Research, and Service Learning. Participants completing the requirements graduate with gold, silver or bronze designations. More than 500 students have completed interest forms and 100 students received LeADERS designations upon graduation this past year.**

The Center for Social Mobility hosted a Virginia workshop on social mobility funded by a grant from the State Council for Higher Education in Virginia. ODU also hosted the second annual National Social Mobility Symposium. Both events featured national leaders on social mobility, including representatives from Education Trust and *U.S. News & World Report*.

The Fundraising Initiative continues to go well, with \$146.9 million raised to date. This includes \$10 million raised for the stadium project, including a \$1 million gift from TowneBank for a new video board.

The University extended its contract with Aramark for five years through 2030. The contract includes \$100,000 per year for ten years for the scholarship fund and an additional \$9.5 million in capital funding, for a total of \$14.5 million due now through 2030. The University has also secured a sponsorship from Chartway Federal Credit Union for the Ted Constant Convocation Center arena worth \$4.25 million over ten years. The President recognized Vice President DuBois and his staff for these initiatives that will benefit students through scholarships and updated facilities.

Conference USA added the NFL Network as one of its television partners. The partnership includes ten televised Conference USA games each year for the next four years. This flagship network reaches 65 million homes and will increase the conference's visibility.

Jim Schaeffer, former Dean of the College of Continuing Education and Professional Development, was named president of Eastern Shore Community College.

At the conclusion of his report, President Broderick recognized Mike Henry, Donna Scassera, and Bob Tata, whose terms of service on the Board will end June 30. Yvonne Allmond was reappointed for a second term and three new members will be joining the Board.

## **REPORTS OF STANDING COMMITTEES**

She reported that the financial statements are presented fairly in all material respects. The audit found internal control deficiencies requiring management's attention that are not considered material weaknesses and instances of noncompliance or other matters required to be reported under Government Auditing Standards. These instances have or are being addressed by management.

Mr. Doug Streit, Chief Information Security Officer, briefed the Committee on the University's risk management program as part of a comprehensive IT security program. He provided examples of current initiatives focused on 2-factor authentication and business email compromise email scams.

At the conclusion of her report, the Committee approved by unanimous vote the modified FY 2019 Audit Plan and the proposed 2020 Audit Plan.

Ms. Skaggs presented the findings of the recent audit on Transportation and Parking Services. The audit identified reportable conditions, but these have not caused or are likely to cause significant errors, omissions, fraud or other adversities. Management will undertake corrective action to address the issues identified. She also provided an update on open audit issues. Of the 48 open audit issues tracked during this reporting cycle, seven are complete and 41 are planned or in progress.

RESOLVED, that upon the recommendation of the Academic and Research Advancement Committee, the Board of Visitors approves the proposed revisions to the policy on Reappointment/Annual Review or Nonreappointment of Faculty effective July 1, 2019.

Rationale: The proposed changes to the policy on Reappointment/Annual Review or Nonreappointment of Faculty are recommended so that the policy will be consistent with the changes made to the policy on Evaluation of Lecturers, Senior Lecturers, and Master Lecturers and Promotion of Lecturers and Senior Lecturers. In addition, specific sections have been added related to the review of (1) lecturers and clinical assistant professors, (2) senior lecturers and master lecturers, and (3) clinical associate professors and clinical professors.

**TITLE:** Reappointment/Annual Review or Nonreappointment of Faculty

**APPROVED:** June 12, 1980; Revised June 20, 1985; Revised June 16, 2011; Revised April 26, 2013 (eff. 6/1/13); Revised June 14, 2018 (eff. 7/1/18)

I. Board of Visitors Policy

A. Nature of Appointment

1. Unless tenure has been awarded by the university, all appointments of full-time faculty are on an annual, temporary, or probationary basis, renewable one year at a time at the discretion of the university.
2. In some cases, appointments for a period of less than one academic year may be made, for example, initial appointments at mid-year or emergency one-semester appointments.

II. Guidelines

- A. Consideration of reappointment or nonreappointment will be according to a timetable distributed by the Office of the Provost and Vice President for Academic Affairs. Consideration takes place early in the second semester for faculty members in their first year of service and early in the first semester for faculty members in the second or subsequent year of service.
- B. For instructors, assistant professors, lecturers, clinical assistant professors, research assistant professors, and untenured associate professors and professors, the initial consideration will be by the departmental tenure and promotion committee unless they are in the first year and have been appointed mid-year. For senior lecturers, master lecturers, research associate professors, research professors, clinical associate professors, and clinical professors, initial consideration will be by the department chair, except for those years when the faculty member is undergoing their fifth year review (see III.B. below).
- C. In the case of financial constraints or demonstrable overstaffing of departments, the dean or the provost and vice president for academic affairs may require that the

number of probationary tenurable and nontenable faculty members in the department be reduced.

- D. Faculty members who were appointed as instructors with the expectation that the terminal degrees would be completed may not be reappointed before the award of the degree unless prior approval has been obtained from the provost and vice president for academic affairs. (See the Board of Visitors Policy and Procedures Concerning Academic Rank and Promotion in Rank.)
- E. If the critical requirements of the position of a probationary tenurable faculty member are changed so as to affect the primary duties expected of the faculty member, and hence his or her consideration for tenure, the faculty member shall be fully and promptly informed of the changes in writing at least one semester before the changes are implemented.

### III. Procedures

#### A. Reappointment or Nonreappointment of Probationary Tenure-Track Faculty

1. The departmental promotion and tenure committee and all subsequent persons considering the case will take into consideration the formal evaluations of the faculty member's performance by the chair and the dean, faculty information sheets, and any other relevant data, as well as the needs of the department.
2. These procedures will be suitably adapted for faculty members who hold interdisciplinary, interdepartmental or joint appointments or who hold appointments in a department with two or fewer tenured faculty members. The adapted procedures should be recommended by the promotion and tenure committee of the college or colleges involved and approved by the dean or deans concerned and the provost and vice president for academic affairs.
3. Each department conducts an annual review of the probationary tenure-track faculty in that department. This review is based on the performance of the individual faculty member and the needs of the department and is initially conducted by a committee consisting of tenured members of the department.
4. The departmental promotion and tenure committee recommends to the chair one of the following actions:
  - a. That the faculty member be considered for tenure through normal channels, if a sufficient probationary period has elapsed. (In this case, the faculty member is considered for tenure through the normal tenure procedures, and the remainder of this section does not apply.)
  - b. That the faculty member be offered an additional annual contract without tenure.

- c. That the faculty member not be reappointed, that is, not be offered an additional contract if in the first or second year of service or offered a terminal contract for the succeeding year if in the third or subsequent year of service.
  - d. A copy of the committee's recommendation shall be supplied to the faculty member.
5. Considering the written recommendation of this committee, the performance of the faculty member and the needs of the department, the chair makes a recommendation to the dean concerning reappointment or nonreappointment of each individual probationary tenure-track faculty member and provides the faculty member with a copy of the recommendation.
  6. Considering the recommendation of the departmental promotion and tenure committee and of the chair as well as the needs of the college, the dean makes a decision concerning reappointment or nonreappointment of each individual probationary tenure-track faculty member, notifies that faculty member in writing of this decision, and provides the faculty member and the provost and vice president for academic affairs with a copy of the decision letter.
    - a. If the dean decides not to reappoint a faculty member, the faculty member may request a review by the provost and vice president for academic affairs. The decision of the provost and vice president for academic affairs is final.
    - b. Notice of the dean's decision concerning reappointment or nonreappointment of probationary tenure-track faculty members shall be according to the following schedule:
      1. Not later than March 1 of the first academic year of service.
      2. Not later than December 15 of the second academic year of service.
      3. Terminating appointment of one year, with notice by December 15, after two or more academic years of service.

B. Reappointment or Nonreappointment of Nontenure-track Faculty

1. Each department conducts an annual review of all the nontenure-track faculty members in that department. This review is based on the performance of the individual faculty member and the needs of the department.
  - a. For lecturers and clinical assistant professors, this review is initially conducted by a committee consisting of tenured members of the department and master lecturers and clinical professors followed by the department chair and dean.

- b. Notice of the dean's decision concerning reappointment or nonreappointment of nontenure-track faculty members shall be according to the following schedule:
  1. Not later than March 1 of the first academic year of service.
  2. Not later than December 15 of the second or subsequent academic year of service.

-----

Committee members approved by unanimous vote the proposed changes to the policy on Promotion in Rank. The proposed changes are intended to clarify sections of the policy related to participation and voting requirements at the various levels of the review process and the addition of materials to a promotion candidate's file. The following resolution was brought forth as a recommendation of the Academic and Research Advancement Committee and was unanimously approved by all members present and voting (*Allmond, Bennett, Bradley, Corn, Dickseski, Henry, Harris, Hill, Jones, Kemper, Kirk, Mugler, Scassera*).

#### **APPROVAL OF PROPOSED REVISIONS TO THE POLICY ON PROMOTION IN RANK**

RESOLVED, that upon the recommendation of the Academic and Research Advancement Committee, the Board of Visitors approves the proposed revisions to the policy on Promotion in Rank effective July 1, 2019.

Rationale: The proposed changes to the policy on Promotion in Rank are intended to clarify sections of the policy related to participation and voting requirements at the various levels of the review process and the addition of materials to a promotion candidate's file. Also, the changes specify that the policy refers to promotion to rank of full professor.

A summary of the changes is as follows.

- Clarification of the opportunity for the faculty member under consideration for promotion to submit a statement to support his or her case or correct any factual information.
- The addition of procedures for adding material to the promotion file before the conclusion of the evaluation process.
- The requirement that committee members at all levels (department, college and University committees) participate (either in person or remotely) in the deliberation of the committee in order to vote.
- The addition of language prohibiting proxy votes or votes submitted by non-secure means.

- Clarification throughout the policy that it refers to promotion to full professor, except for the separate sections on research faculty, clinical faculty and part-time faculty.
- The provision for the addition of a temporary replacement when the elected representative of a college committee is not able to attend college committee meetings for a significant time span.
- The addition of a section related to the promotion of lecturers and senior lecturers.

**TITLE:** Promotion in Rank

**APPROVED:** September 26, 2013; Revised June 9, 2016 (eff. 7/1/16); Revised June 6, 2017 (eff. 7/1/17); Revised June 14, 2018 (eff. 7/1/18)

#### I. Board of Visitors Policy

- A. All promotions in rank are based on evaluation of the faculty member's performance in teaching, research, and service (as appropriate) over the total time in the previous rank as compared to the criteria established by the Board of Visitors for the rank being considered and any other criteria established by the department or college.
- B. Promotion to the rank of associate professor must occur at the time of the tenure award, and the policy on tenure applies.
- C. Promotion to the rank of full professor is normally considered no earlier than during the sixth year of a faculty member's service as associate professor at Old Dominion University. Exceptions are made only under the following circumstances:
  1. A faculty member who has held the rank of associate professor at another institution and was initially appointed to Old Dominion University at the rank of associate professor may be considered for promotion at the time of the award of tenure.
  2. A faculty member of extraordinary merit may be considered for promotion to the rank of full professor before the sixth year as associate professor at Old Dominion University.
- D. The president, upon the recommendation of the Faculty Senate, shall establish procedures for consideration of promotion to the rank of full professor (as well as for the designation as eminent scholar). Such procedures shall require consideration and recommendation by faculty members at the department and college level, the chair, the dean, and the University Promotion and Tenure Committee. The decision concerning promotion is to be made by the provost and vice president for academic

affairs. If the provost and vice president for academic affairs decides against promotion, the faculty member may request a review by the president. The decision of the president is final.

## II. Procedures for Promotion in Rank to Full Professor

### A. Considerations Concerning Promotion

1. Each faculty committee and administrator considering a promotion case must specifically consider factors listed below as they apply to each case in the written recommendations that are submitted up the line to the provost and vice president for academic affairs. In the case of committees, the vote must be recorded in the recommendation, and the reasons produced by the minority members must be specified.
2. Each committee and administrator making a recommendation concerning promotion considers evidence of the faculty member's performance over the total time in which the previous rank has been held as compared to the guidelines for the rank being considered as established by the Board of Visitors and any other guidelines established by the department or college.
3. The total rank structure of the department should be considered.
4. At the least, the committees and administrators should examine faculty information sheets, chair evaluations, dean's evaluations, and any other evidence submitted by the faculty member, the chair of the department, or any other relevant source. It is the responsibility of the department chair and the departmental promotion and tenure committee to provide an assessment of the quality of the publications for the faculty being considered for promotion. The evidence should address the quality of the journals and the reputation of book and other such publishers.

### B. External evaluation of the faculty member's research and scholarly activity by nationally recognized experts in the field of specialization will be required.

1. The responsibility for initiating the external review, securing the reviewers, and forwarding complete review files to the dean, provost and vice president for academic affairs, and the University Promotion and Tenure Committee belongs to the department chair. If the department chair does not have the rank of full professor, all chair responsibilities for promotion to full professor will be delegated by the dean to a full professor in the department or from another department within the same college who will assume all of the chair's responsibilities described below. This appointed full professor, acting in the role of chair, cannot take part in any deliberations or votes of the departmental, college or University promotion committees while the promotion case is being considered. In promotion of department chairs, the responsibility belongs to the dean.

2. External reviewers with academic positions must hold the same rank or higher than the promotion rank for which the faculty member is being considered; exceptions should be justified by the dean. The department tenure and promotion committee and the candidate will prepare separate lists of potential reviewers. The candidate will review both lists and will document personal and professional relationships with all potential reviewers. The chair (or designee, see 1 above) will select three reviewers from the candidate's list and three reviewers from the department tenure and promotion committee's list; the chair (or designee) will provide the list of reviewers to the dean. The dean will submit an agreed upon list to the provost and vice president for academic affairs for final approval prior to initiating the review process. As a general rule, external reviewers should not be co-authors or former mentors of the candidate. The selection of potential external reviewers must be completed before the end of the semester prior to the submission of credentials for promotion.
3. External reviews will be confidential; reviewers will be so advised. Requests for exception to the confidentiality of external reviews should be made directly to the provost and vice president for academic affairs before the reviewers are asked to submit evaluations. If an exception is approved, candidates for promotion will be allowed access to the substance of external reviews, but the authorship of specific external reviews and other identifying information contained therein will remain confidential. All external reviewers will receive a standard letter sent by the chair but prepared by the provost and vice president for academic affairs in consultation with the deans and a copy of the policy on external reviews so their responsibilities will be clear.
4. A curriculum vitae will be required of each external reviewer. Each reviewer will be asked to describe any personal or professional relationship with the candidate. It is the responsibility of the chair to include a curriculum vitae of each reviewer. For promotion of department chairs, the responsibility belongs to the dean.
5. External reviewers will be asked to evaluate all submitted material mailed to them. Candidates for promotion are responsible for the preparation of the research portfolio and curriculum vitae to be sent to external reviewers. In the case of the arts, reviewers may be asked to consider works of art or performances. External reviewers will be asked to evaluate: a) the quality of the scholarship or creative work under review; and b) the scholarly reputation (regional, national, international) of the candidate.
6. All candidates for promotion to full professor will be required to have their scholarship evaluated by no fewer than four external reviewers. If fewer than four reviews are received, the chair will choose additional reviewers alternately from the lists of the department promotion and tenure committee and of the candidate.
7. The University and college administration will assist departments where reasonable expenses are necessary to obtain appropriate external reviews.

- C. A candidate for promotion in rank is initially considered by the faculty members in the department who hold the rank being considered or above. Only faculty holding the rank of full professor are eligible to deliberate, review, or otherwise participate and vote on candidates for promotion to full professor.
1. In the case of large departments, the faculty members in the rank being considered or above may select a committee from their ranks to consider and make recommendations concerning promotion. In that case, it is the responsibility of the committee to elicit opinions from all faculty members holding the rank being considered or above.
  2. In departments where fewer than three members hold appointments in the rank being considered or above, the dean, in consultation with the chair (or designee; see section II.B.1.), will appoint enough additional faculty in the rank or above from other disciplines to form a committee of at least three.
  3. Candidates for promotion should provide a statement of potential external and/or internal reviewers with whom there is a conflict of interest, e.g., co-authors, co-investigators, etc.
  4. No dean, associate dean, assistant dean, or other full-time administrator or department chair (or designee; see section II.B.1.) shall attend or participate in the deliberation of either the departmental, college, or University Promotion and Tenure Committee. The deliberations of all three committees are confidential and must not be shared with anyone outside of the committee.
  5. The college committees shall consist of one tenured faculty member from each department in the college. All members of the college promotion and tenure committees shall be elected directly by the faculties they represent for a one-year term renewable twice for a total of three years. ~~They~~This member shall be chosen by majority vote of all full-time, tenure-track teaching and research faculty members of the department, present and voting, by secret ballot before April 15 of each year for the ensuing year. Every reasonable effort should be made to ensure that there are at least~~There should be at least a majority of three~~ full professors on the college committee. If the elected representative of a department will not be able to attend college committee meetings for a significant time span, the department may elect a temporary replacement for that time span. No person shall serve on a college promotion and tenure committee for more than three years consecutively but is eligible for reelection after an absence of at least one year. Only faculty holding the rank of full professor are eligible to join the deliberations and the vote on candidates for promotion to full professor. If the home department of a candidate for promotion to full professor has no full professor representing it on the college committee, a member of the departmental promotion committee for that candidate (convened as described in section C.1. and C.2. above) shall be elected to serve as its representative only for the duration of the deliberations on that specific candidate. In any case, the representative from a promotion

candidate's department will participate in deliberations in the candidate's case but will not cast a vote.

6. The University Promotion and Tenure Committee shall consist of one tenured full professor from each of the major degree-granting academic colleges. This member shall be elected by his/her college's promotion and tenure committee(s) by September 15. The University Promotion and Tenure Committee shall elect one of its members as chair. No person shall serve on the University Promotion and Tenure Committee for more than three years consecutively but is eligible for reelection after an absence of at least one year. The representative from a promotion candidate's college will participate in deliberations in the candidate's case but will not cast a vote.

~~6.7.~~ Any committee member who participates in the promotion process votes at most only once on any particular case.

~~7.8.~~ The faculty member under consideration ~~involved~~ is informed whenever a committee is considering promotion ~~in rank~~ and is given an opportunity ~~either to appear before that committee (or group) considering the case, or~~ to submit a statement (in electronic form) in writing to the Provost's Office in support of eligibility for their promotion case, or to correct any factual misinformation in previous recommendations. The Provost's Office will add such statements to the candidate's file.

~~8.9.~~ In case of material new accomplishments ~~developments~~ before the conclusion of the evaluation process, additional documentation may be added to the portfolio with the concurrence of the ~~department chair (or designee) and dean~~. Such additional material must be clearly marked as such and dated at the time of addition to the promotion file by the Provost's Office. If such additional documentation is considered, this must be clearly documented in the recommendation letters by the committee or individual (e.g. dean) who first see this new material.

D. The committee or faculty group makes its recommendation concerning promotion to the chair (or designee; see section II.B.1.) together with reasons for the recommendation (including a minority statement in the case of a non-unanimous vote), and specifies the vote of the committee. All eligible committee members shall vote yes or no through a secret ballot after participating (either in person or remotely) in the deliberations of the committee. Proxy votes or votes submitted by non-secure means (e.g., email or communication accessible to a third party) are not permitted. In instances of a non-unanimous vote, the minority opinion must be included in the committee recommendation and the minority must be given the option to write the minority opinion. The chair (or designee) evaluates independently the credentials of the faculty member, the rank structure of the department, and any additional evidence presented, either by the faculty member or from any other source, and makes a recommendation, with reasons, concerning promotion.

- E. If either the departmental committee (or group), or the chair (or designee), or both recommend promotion, the faculty member's credentials together with the recommendation of the faculty committee and the chair (or designee) will be forwarded to a promotion committee of the college for consideration. This committee will make an independent evaluation and make a recommendation concerning promotion with reasons (including reasons of the minority), to the dean. The recommendations will indicate the vote of the committee. All committee members should vote yes or no through a secret ballot after participating (either in person or remotely) in the deliberations of the committee. Proxy votes or votes submitted by non-secure means (e.g., email or communication accessible to a third party) are not permitted. Members who are eligible to vote on a specific candidate's promotion application are defined in section II.C.5. In instances of a non-unanimous vote of all eligible voting members, the minority opinion must be included in the committee recommendation and the minority must be given the option to write the minority opinion.
- F. If neither the faculty committee (or group) nor the chair (or designee) recommend promotion, the faculty member will not be considered for promotion in the coming year unless a review by the college promotion committee and the dean is requested by the faculty member. If a review is requested, the departmental committee and the chair forward all documents to the promotion committee of the college, which examines them and makes a recommendation concerning promotion to the dean following the stipulations of II.E. above. The dean examines all documents, including the recommendation of the college committee, and makes a determination concerning promotion. If the dean's determination is negative and is in accordance with the recommendations of the departmental committee, the chair, and the college committee, then the faculty member is not promoted for the coming year. If the dean's determination is negative and is not in accordance with all previous recommendations, the faculty member may request a further review by the provost and vice president for academic affairs. The decision of the provost and vice president for academic affairs is final in such cases.
- G. The dean, considering all previous recommendations and all credentials, then makes a recommendation concerning promotion, which is forwarded, with reasons, to the provost and vice president for academic affairs.
- H. The University Promotion and Tenure Committee, consisting of one tenured full professor from each of the major degree-granting academic colleges, examines the facts and all previous recommendations and documentation, and makes a recommendation (with reasons, including minority reasons, if any) concerning promotion, which is forwarded to the provost and vice president for academic affairs. All eligible committee members shall vote yes or no through a secret ballot after participating (either in person or remotely) in the deliberations of the committee. Proxy votes or votes submitted by non-secure means (e.g., email or communication accessible to a third party) are not permitted. Members who are eligible to vote on a specific candidate's promotion application are defined in section II.C.6. In instances of a non-unanimous vote of all eligible voting members, the minority opinion must be

included in the committee recommendation and the minority must be given the option to write the minority opinion.

- I. On the basis of all the evaluations and recommendations presented, and after consultation with staff, the provost and vice president for academic affairs makes a decision concerning promotion for the coming year. If the recommendations of the committees and administrators that have previously considered the case have not been in agreement with one another, or if the provost and vice president for academic affairs disagrees with the recommendations that have been in agreement with one another, the provost and vice president for academic affairs shall consult with the chair, the dean, and the University Promotion and Tenure Committee before reaching a final decision. The decision of the provost and vice president for academic affairs will consist of one of the following:
  1. promotion
  2. deferral
- J. If the decision of the provost and vice president for academic affairs is for promotion, the faculty member will receive the higher rank in the subsequent academic year. The decision of the provost and vice president for academic affairs will be reported to the president.
- K. The faculty member may request that the president review a negative decision by the provost and vice president for academic affairs. The decision of the president is final.
- L. All promotions are reported by the president to the Board of Visitors.
- M. Copies of the recommendations by all committees, chairs, deans and the provost and vice president for academic affairs shall be provided to the faculty member being considered for promotion. The faculty member will be provided opportunity to correct any factual misinformation in such recommendations by placing a letter in his or her promotion file at any stage, or up until April 1, to the provost and vice president for academic affairs.
- N. The above procedures at the department and college level may be suitably adapted for faculty members who hold interdisciplinary or interdepartmental appointments. The adapted procedures should be recommended by the promotion and tenure committee of the college or colleges involved and approved by the dean or deans and the provost and vice president for academic affairs. Procedures above the college level will be the same as those designated above in all cases.

### III. Research Faculty

- A. Promotion to the rank of research professor from the rank of research associate professor and promotion to the rank of research associate professor from the rank of research assistant professor shall be upon the recommendation of the department,

chair, college promotion and tenure committee, dean and University Promotion and Tenure Committee to the provost and vice president for academic affairs. If the provost and vice president for academic affairs decides against the promotion, the person may request a review by the president. The decision of the president is final.

B. The process for promotion to the rank of research professor and promotion to the rank of research associate professor will require external evaluation of the quality of the faculty member's research performance from nationally recognized experts in the faculty member's field; procedures for the external review process can be found in section II.~~B.C.~~ of this policy.

C. For those research faculty who only have appointments in one of the University-level research centers, the following promotion policy will apply. Research centers will establish a promotion committee to review faculty promotions and make recommendations to the center director. Appointments to this committee will follow the guidance of section II.~~C.D.~~ of this policy pertaining to departments. This promotion committee should include at least one member from the academic department(s) most closely aligned to the center to ensure promotion considerations are being applied equitably between the faculty assigned to that department and those assigned to the center. In centers where fewer than three members hold appointments in the rank being considered or above, the center director will solicit members of the department(s) most closely aligned to the center, in consultation with the chair(s) of those department(s), to form a committee of at least three. The center director will review faculty promotion recommendations and will recommend to the vice president for research those members who have met the promotion criteria. The vice president for research will forward a recommendation regarding promotion to the Office of Academic Affairs for review by the University Promotion and Tenure Committee and the provost and vice president for academic affairs. The University Promotion and Tenure Committee will forward a recommendation to the provost and vice president for academic affairs. If the decision of the provost and vice president for academic affairs is for promotion, the faculty member will receive the higher rank in the subsequent academic year. The faculty member may request that the president review a negative decision by the provost and vice president for academic affairs. The decision of the president is final.

#### IV. Clinical Faculty

A. Promotion to the rank of clinical professor from the rank of clinical associate professor and promotion to the rank of clinical associate professor from the rank of clinical assistant professor shall be upon the recommendation of the department promotion and tenure committee, department chair, college promotion and tenure committee, dean and University Promotion and Tenure Committee to the provost and vice president for academic affairs. If the provost and vice president for academic affairs decides against the promotion the person may request a review by the president. The decision of the president is final.

B. The process for promotion to the rank of clinical professor and promotion to the rank of clinical associate professor will require external evaluation of the quality of the faculty member's scholarly activities from nationally recognized experts in the faculty member's field; procedures for the external review process can be found in section II.B. of this policy. The schedule for review will follow that for clinical faculty seeking promotion in rank of assistant, associate, and full professor

V. Lecturers may be promoted in rank to senior lecturer and senior lecturers may be promoted in rank to master lecturer. The applicable policies are contained in the section "Evaluation of Lecturers, Senior Lecturers, and Master Lecturers and Promotion of Lecturers and Senior Lecturers."

V.VI. Part-time instructional faculty may be promoted in rank (for example, from adjunct assistant professor to adjunct associate professor) upon recommendation of the chair and dean to the provost and vice president for academic affairs. Full documentation of the credentials of the faculty member being recommended for promotion is required. If the provost and vice president for academic affairs denies the promotion, the faculty member may request a review by the president. The decision of the president is final.

Committee members approved by unanimous vote the proposed changes to the Policy on Tenure. The changes are recommended so that the policy will be consistent with the changes made to the policy on Promotion in Rank. The following resolution was brought forth as a recommendation of the Academic and Research Advancement Committee and was unanimously approved by all members present and voting (*Allmond, Bennett, Bradley, Corn, Dickeski, Henry, Harris, Hill, Jones, Kemper, Kirk, Mugler, Scassera*).

#### **APPROVAL OF PROPOSED REVISIONS TO THE POLICY ON TENURE**

RESOLVED, that upon the recommendation of the Academic and Research Advancement Committee, the Board of Visitors approves the proposed revisions to the policy on Tenure effective July 1, 2019.

Rationale: The proposed changes to the policy on Tenure are intended to clarify sections of the policy related to participation and voting requirements at the various levels of the review process and the addition of materials to a tenure candidate's file. A summary of the changes is as follows.

- Clarification of the opportunity for the faculty member under consideration for tenure to submit a statement to support his or her case or correct any factual information.
- The addition of procedures for adding material to the tenure file before the conclusion of the evaluation process.

- The requirement that committee members at all levels (department, college and University committees) participate (either in person or remotely) in the deliberation of the committee in order to vote.
- The addition of language prohibiting proxy votes or votes submitted by non-secure means.

#### I. Purpose of Tenure

The main purposes of tenure are to protect academic freedom and to enable the University to attract and retain a permanent faculty of distinction in order to accomplish its mission. For these reasons, tenure is usually awarded only after a suitable probationary period, and the decision to award tenure is based both on the merit of the individual faculty member and on the long-term needs and mission of the department, the college, and the University.

#### II. Eligibility for Tenure

- A. Only faculty members who hold the ranks of assistant professor, associate professor, or full professor are eligible to be considered for tenure. Assistant professors will be awarded tenure only if they are simultaneously being promoted to the rank of associate professor.
- B. Faculty members may be considered for tenure only once.
- C. Under certain circumstances administrative faculty holding rank in a department at the assistant professor (if promotion to the rank of associate professor is being simultaneously considered), associate professor, or full professor level may be considered for tenure, as specified by the Board of Visitors policy concerning administrative faculty.

- D. Since tenure is granted as a faculty member in an academic department or program, the award of tenure does not imply continuance in any full-time or part-time administrative position, nor does it imply continuance of any specific work assignment within or outside the department in which tenure is granted.

### III. Probationary Period

- A. The probationary period begins with the initial full-time, tenure-track appointment at Old Dominion University at the rank of instructor, assistant professor, associate professor, or full professor; only time spent in a tenure-track position at one of these ranks is counted as part of the probationary period.

Subject to agreement by the University and the faculty member, any academic year in which a faculty member was on a full-time tenure-track appointment in one of these ranks for at least one semester, may be counted as one year of the probationary period.

- B. The following do not count as part of the probationary period:
  - 1. Time in the rank of assistant instructor, lecturer, master or senior lecturer, faculty of practice, clinical faculty, artist-in-residence, performer-in-residence, writer-in-residence, research professor, research associate professor, research assistant professor, research associate, or any part-time position.
  - 2. Time in appointment as an administrator, that is, in a position designated as a teaching/research administrative position or as a classified position in the state personnel system. (Time spent in a teaching and research faculty position as defined in the state personnel system will count as part of the probationary period, even if administrative responsibilities are assigned as part of that position; normally, departmental administrative positions such as chair or assistant chair will thus count as part of the probationary period.)
  - 3. Time in a position that involves no teaching of credit courses, for example as a teacher of children or a therapist in the Children's Learning and Research Center or as a teacher of exclusively noncredit course work.
  - 4. Time spent on leave of absence.
  - 5. Time spent on faculty exchanges (including nationally competitive fellowships) if the faculty member so chooses.
- C. A period of time, not to exceed one year, may be excluded from the probationary period, upon the approval of the provost and vice president for academic affairs subject to the following conditions.

1. That the faculty member submits a request in writing to the department chair. The department chair and the dean shall forward the request with a recommendation to the provost and vice president for academic affairs.
  2. The request must be the result of the occurrence of a serious event. A “serious event” is defined as a life-altering situation which requires the faculty member to devote more than eight hours of each day to alleviate the impact of the event for a period greater than six weeks and less than one year. These events may include the birth of a child, adoption of a child under the age of six years, serious personal illness or care of an immediate family member including parent, stepparent, child, or spouse.
  3. The faculty member shall provide documentation to justify the time requested and the seriousness of the event.
  4. The request shall be made no later than one year from the first day of the serious event.
  5. The faculty member must have been adequately performing the duties assigned prior to the first day of the serious event.
  6. Faculty who are awarded this exclusion shall have no requirements or expectations beyond those of any probationary faculty member.
  7. Work accomplished during the excluded period may be cited in the tenure case.
  8. Requests for exclusion may be made at any time during each academic year. No request shall be made after the application for tenure has been submitted.
  9. Decisions will be made within 60 days of the receipt of the faculty member’s request by the department chair.
  10. The decision of the provost and vice president for academic affairs is final.
- D. The maximum total period for full-time probationary appointments (excluding periods not counted, see section III.B.) is six years, unless an approved extension is granted (see section III.C.). If the tenure decision is negative, a one-year terminal appointment is offered.
- E. The length of the probationary period may be reduced in any of the following instances:
1. A faculty member initially appointed to the rank of full professor may be considered for tenure in the second year of service and would be notified of a tenure decision according to the schedule in the Teaching and Research Faculty Handbook; if tenure is awarded, a tenure contract will be offered for a third year of service. In addition, the probationary period for a full professor may be

eliminated, and an initial tenure appointment may be recommended to the Board if such an appointment has been requested by the chair, voted on by the departmental tenure committee, the college promotion and tenure committee, the University Promotion and Tenure Committee and approved in writing by the dean, the provost and vice president for academic affairs, and the president. It is the sense of the Board of Visitors that the procedure of eliminating the probationary period for tenure should be rarely used. (Please refer to the policy on Initial Appointment of Teaching and Research Faculty for additional information on an initial appointment with tenure.)

2. A faculty member initially appointed to the rank of associate professor may be considered for tenure in the fourth year of service and would be notified of a tenure decision according to the schedule in the Teaching and Research Faculty Handbook. If tenure is approved, a tenure contract will be offered for the fifth year. In addition, the probationary period for an associate professor may be eliminated, and an initial tenure appointment may be recommended to the board if such an appointment has been requested by the chair, voted on by the departmental tenure committee, the college promotion and tenure committee, the University Promotion and Tenure Committee and approved in writing by the dean, the provost and vice president for academic affairs, and the president. It is the sense of the Board of Visitors that the procedure of eliminating the probationary period for tenure should be rarely used.
3. A faculty member may apply for early consideration for tenure, if the faculty member believes that he or she has met or exceeded the expectations of quantity and quality of achievements for teaching, scholarship, research, and service needed to qualify for tenure before the end of the normal probationary time period. The criteria for the award of tenure for such faculty will be the same as those who apply after the normal probationary time period. A faculty member who applies for early consideration for tenure and is denied tenure will be offered a terminal contract for the ensuing year. It is the sense of the Board of Visitors that only demonstrably exceptional faculty will be awarded tenure under this clause.

#### IV. Criteria for the Award of Tenure

- A. The following criteria are used in the evaluation of every candidate for tenure. Each faculty committee and administrator considering a tenure case must specifically address each of these criteria as they apply to that case in the written recommendations that are submitted up the line to the provost and vice president for academic affairs. Committee votes must be recorded in the recommendations. In cases in which a vote is not unanimous, reasons for negative votes must be included.
- B. Criteria to be used are as follows:
  1. Since tenure may be awarded only to faculty members who hold the rank of associate or full professor or who are being simultaneously appointed to one of

those ranks, any faculty member awarded tenure must meet the minimum requirements for the rank of associate professor.

2. Merit - Merit of the faculty member in teaching, research and service over the entire probationary period and the contributions made by the faculty member in these areas to the University. Scholarly and teaching activity up to six years before the tenure decision should be considered, which can include activity at another accredited institution of higher education or national research institutions. (For definition of teaching, research, and service and a discussion of methods of evaluation, see policies and procedures concerning evaluation of faculty members, evaluation of teaching, evaluation of scholarly activity and research, and evaluation of service.) In addition to information supplied by faculty information sheets, the chair's evaluation and other material presented by the department, an opportunity shall be made available for the faculty member to provide in writing any other material in support of the tenure candidacy. It is the responsibility of the department chair and the departmental promotion and tenure committee to provide an assessment of the quality of the publications for the faculty being considered for tenure. The evidence should address the quality of the journals and the reputation of book and other such publishers. In case of material developments, additional documentation may be added to the portfolio before the conclusion of the evaluation process with the concurrence of the department chair and dean.

External evaluation of the quality of the faculty member's research performance will be required from nationally recognized experts in the faculty member's field. Candidates for tenure are responsible for the preparation of the research portfolio and curriculum vitae to be sent to external reviewers. Candidates for tenure should provide a statement of potential external and/or internal reviewers with whom there is a conflict of interest, e.g., co-authors, co-investigators, etc.

- a. A curriculum vita will be required of each external reviewer. Each reviewer will be asked to describe any personal or professional relationship with the candidate. It is the responsibility of the chair to include a curriculum vitae of each reviewer. For tenure of department chairs, the responsibility belongs to the dean.
- b. External reviewers will be asked to evaluate all submitted material mailed to them based on the department's approved criteria for the evaluation of scholarly activity and research. In the case of the arts, reviewers may be asked to consider works of art or performances. External reviewers will be asked to evaluate: a) the quality of the scholarship or creative work under review; and b) the scholarly reputation (regional, national, international) of the candidate.
- c. All candidates for tenure and promotion will be required to have their scholarship evaluated by no fewer than four external reviewers. If fewer than four reviews are received, the chair will choose additional reviewers

alternately from the lists of the department promotion and tenure committee and of the candidates.

3. The determined long-term needs of the department, college, and University, including at least the following:
  - a. The long-term enrollment of the department.
  - b. The need for an additional specialist in the faculty member's area of specialization as a permanent member of the department in terms of the mission of the department, the college, and the university.
  - c. The tenure structure of the department. (Although no maximum percentage of faculty members on tenure is established, all committees and administrators considering tenure must take into account the need for flexibility in course offerings and the desirability of a tenure structure that will allow openings for new tenured faculty members in the ensuing decades so that new areas of specialization and new needs can be met. The position of other nontenured faculty members in the department, anticipated retirements, or other known departures, and projected new programs or changes in directions must be considered.)
4. No person can be awarded tenure unless convincing evidence is provided of effective teaching.
5. No faculty member can be awarded tenure unless convincing evidence is provided of successful performance in scholarly activity and research, as judged by the department's approved criteria for the evaluation of scholarly activity and research. It is the faculty member's responsibility to include these criteria in the research portfolio submitted to external reviewers and in the data file submitted internally. If these criteria changed during the faculty member's probationary period, he or she can choose which version to submit. All evaluations of the faculty member's research and scholarly activity, at every stage of the tenure process, should be guided by these criteria.

#### V. Procedures for Tenure Consideration

- A. The provost and vice president for academic affairs, fifteen months prior to the date for giving notification of the tenure decision, shall formally advise the professor that the limit of the probationary period is approaching, and explain what procedures should be followed by those wishing to be considered for tenure.
- B. The initial steps of the review process are normally conducted by the chair of the department or unit with which the candidate for tenure is affiliated, assuming the chair has tenure. If the chair is not tenured, he or she may not be involved in any aspect of the tenure decision. In that case, the dean of the college housing the department should appoint a tenured member of the department in question to act in

the chair's stead. This faculty member shall not take part in any deliberations or votes of the departmental, college or University tenure committee. If the candidate for tenure is the chair of a department, the dean shall conduct the initial steps of the review process but will not write a separate recommendation at the departmental level.

C. External review process

1. The responsibility for initiating the external review, securing the reviewers, and forwarding complete review files to the dean, provost and vice president for academic affairs, and the University Promotion and Tenure Committee belongs to the department chair or his/her replacement if the chair is not tenured (see section V.B.).
2. External reviewers with academic positions will hold the same rank or higher than the promotion rank for which the faculty member is being considered; exceptions should be justified by the dean. The department tenure and promotion committee and the candidate will prepare separate lists of potential reviewers. The candidate will review both lists and will document personal and professional relationships with all potential reviewers. The chair (or replacement, see section V.B.) will select three reviewers from the candidate's list and three reviewers from the department tenure and promotion committee's list; the chair (or replacement, see section V.B.) will provide this list of reviewers to the dean. The dean will submit an agreed upon list to the provost and vice president for academic affairs for final approval prior to initiating the review process. As a general rule, external reviewers should not be co-authors or former mentors of the candidate. The selection of potential external reviewers must be completed before the end of the semester prior to the submission of credentials for tenure.
3. External reviews will be confidential; reviewers will be so advised. Requests for exception to the confidentiality of external reviews should be made directly to the provost and vice president for academic affairs before the reviewers are asked to submit evaluations. If an exception is approved, candidates for tenure will be allowed access to the substance of external reviews, but the authorship of specific external reviews and other identifying information contained therein will remain confidential. All external reviewers will receive a standard letter sent by the chair (or replacement, see section V.B.) but prepared by the provost and vice president for academic affairs in consultation with the deans and a copy of the policy on external reviews so their responsibilities will be clear.
4. The University and college administration will assist departments where reasonable expenses are necessary to obtain appropriate external reviews.

D. Initial consideration of tenure cases is conducted by the tenured faculty of the department.

1. The tenured faculty of a department may determine that a tenure committee of a specified size will be selected from their membership to conduct the tenure deliberations and make recommendations to the chair (or replacement, see section V.B.). In this case, the entire full-time department faculty will elect the committee. It is the responsibility of this committee to determine the opinions of tenured members of the department not serving on the committee.
2. In departments where fewer than three members are tenured, the dean, in consultation with the chair (or replacement, see section V.B.), will appoint enough additional tenured faculty members to form a committee of at least three members.
3. No dean, associate dean, assistant dean, or other full-time administrator or department chair (or replacement, see section V.B.) shall attend or participate in the deliberation of the departmental, college, University Promotion and Tenure Committee, or the tenured faculty of the department serving as a group to consider tenure, except in those cases when such committees or groups may, at their discretion, request administrators or chairs to answer specific questions concerning tenure cases. The deliberations of all three committees are confidential and must not be shared with anyone outside of the committee.
4. The college committee shall consist of one tenured faculty member from each department in the college. All members of college promotion and tenure committees shall be elected directly by the faculties they represent for a one-year term renewable twice for a total of three years. This member shall be chosen by majority vote of all full-time, tenure-track teaching and research faculty members of the department, present and voting, by secret ballot before April 15 of each year for the ensuing year. Every reasonable effort should be made to ensure that ~~There are~~ at least three full professors on the college committee. No person shall serve on a college promotion and tenure committee for more than three years consecutively but is eligible for reelection after an absence of at least one year. The representative from a tenure candidate's department will participate in deliberations in the candidate's case but will not cast a vote.
5. The University Promotion and Tenure Committee shall consist of one tenured full professor from each of the major degree-granting academic colleges. This member shall be elected by his/her college's promotion and tenure committee(s) by September 15. The University Promotion and Tenure Committee shall elect one of its members as chair. No person shall serve on the University Promotion and Tenure Committee for more than three years consecutively but is eligible for reelection after an absence of at least one year. The representative from a tenure candidate's college will participate in deliberations in the candidate's case but will not cast a vote.
6. Any committee member who participates in the tenure process votes at most only once or any particular case.

7. In order to ensure transparency, fairness, and equity in the internal review process, a faculty member or administrator who participates in the tenure process must disclose any potential conflict of interest that might undermine the credibility of the process. The chair of the department (or replacement, see section V.B.) will work in consultation with the dean of the college to decide whether the person should be excluded from serving on the review committee.
  8. The faculty member under consideration is informed whenever a committee is considering tenure and is given an opportunity to submit a statement (in electronic form) to the Provost's Office in support of their tenure case, or to correct any factual misinformation in previous recommendations. The Provost's Office will add such statements to the candidate's file.
  - 8.9. In case of material new accomplishments before the conclusion of the evaluation process, additional documentation may be added to the portfolio with the concurrence of the dean. Such additional material must be clearly marked as such and dated at the time of addition to the tenure file by the Provost's Office. If such additional documentation is considered, this must be clearly documented in the recommendation letters by the committee or individual (e.g. dean) who first see this new material.
- E. The committee or group of tenured faculty makes its recommendations to the chair (or replacement, see section V.B.). All ~~eligible~~ committee members shall vote yes or no through a secret ballot, after participating (either in person or remotely) in the deliberation of the committee. Proxy votes or votes submitted by non-secure means (e.g., email or communication accessible to a third party) are not permitted. In instances of a non-unanimous vote, the minority opinion must be included in the committee recommendation and the minority must be given the option to write a minority opinion. A copy of the recommendation letter will be sent to the faculty member by the chair of the committee. Considering this recommendation, the chair (or replacement, unless the dean is acting in the chair's stead, see section V.B.) makes an additional evaluation and recommendation concerning tenure. A copy of that review and recommendation letter will be sent to the faculty member and the dean by the chair of the department.
- F. If either the tenured faculty (or their committee), or the chair (or replacement, see section V.B.), or both recommend tenure, the credentials of the faculty member together with the recommendations of the tenured faculty (or their committee) and the chair (or replacement, see section V.B.) are forwarded to the tenure committee of the college, which examines the facts and the recommendations and makes a recommendation to the dean. All eligible committee members shall vote yes or no through a secret ballot, after participating (either in person or remotely) in the deliberation of the committee. Proxy votes or votes submitted by non-secure means (e.g., email or communication accessible to a third party) are not permitted. Members who are eligible to vote on a specific candidate's tenure application are defined in section V.D.4. In instances of a non-unanimous vote of all eligible voting members, the minority opinion must be included in the committee recommendation and the

minority must be given the option to write the minority opinion. A copy of the recommendation letter will be sent to the faculty member by the chair of the committee.

- G. If neither the departmental committee nor the chair (or replacement, see section V.B.) recommends tenure for the faculty member, tenure is not granted in the ensuing year. The faculty member is given a terminal contract for the ensuing year unless a further review is requested.

If the faculty member requests further review, all materials, including departmental and chair evaluations and recommendations are forwarded to the college tenure committee, which makes a separate recommendation to the dean. All committee members should vote yes or no through a secret ballot. In instances of a non-unanimous vote, the minority opinion must be included in the committee recommendation and the minority must be given the option to write the minority opinion. The dean then makes a decision concerning tenure and informs the faculty member.

If either the decision of the college committee or that of the dean is positive, the faculty member's case is considered in accordance with the procedures in the following paragraphs. If both decisions are negative, the faculty member may request, within two weeks, a further review by the provost and vice president for academic affairs, who makes a final determination concerning further consideration of tenure.

- H. The dean of the college examines the facts and all previous recommendations and makes a recommendation concerning tenure, which is forwarded to the provost and vice president for academic affairs, with a copy to the faculty member.
- I. The University Promotion and Tenure Committee, consisting of one tenured full professor from each of the major degree-granting academic colleges, examines the facts and all previous recommendations and documentation and makes a recommendation (with reasons) concerning tenure, which is forwarded to the provost and vice president for academic affairs. All eligible committee members shall vote yes or no through a secret ballot, after participating (either in person or remotely) in the deliberation of the committee. Proxy votes or votes submitted by non-secure means (e.g., email or communication accessible to a third party) are not permitted. Members who are eligible to vote on a specific candidate's tenure application are defined in section V.D.5. In instances of a non-unanimous vote of all eligible voting members, the minority opinion must be included in the committee recommendation and the minority must be given the option to write the minority opinion. The Office of the Provost will provide a copy of the recommendation letter to the dean of the college, the department chair and the faculty member.
- J. The provost and vice president for academic affairs, after examining all submitted documents and consulting with appropriate staff members, makes a determination concerning tenure for the faculty member. If the recommendations from all committees and administrators previously acting on the case have not all been the

same, or if the provost and vice president for academic affairs disagrees with the recommendations that have been the same, then the provost and vice president for academic affairs shall consult with the University Promotion and Tenure Committee and with the chair (if tenured) and dean concerned.

- K. If the determination of the provost and vice president for academic affairs is in favor of tenure, the provost and vice president for academic affairs forwards the faculty member's name to the president for presentation to the Board of Visitors as a candidate for tenure. The Board of Visitors will act on the case according to the schedule in the Teaching and Research Faculty Handbook of the year in which it is being taken up. Upon approval of the Board of Visitors, the faculty member is offered a tenure contract for the coming year.
- L. If the determination of the provost and vice president for academic affairs is against tenure, the faculty member is notified according to the schedule in the Teaching and Research Faculty Handbook that a terminal contract will be offered for the ensuing year.
- M. The faculty member may request, within two weeks, that the president review a negative decision of the provost and vice president for academic affairs. The president should make a decision on the review within one month. If the president upholds the decision of the provost and vice president for academic affairs, the faculty member may request a further review by the Board of Visitors or its designated committee within two weeks. (Refer to the policy on Communications with the Board of Visitors for procedural information.) The decision of the Board of Visitors or its designated committee is final.
- N. Copies of the recommendation by all committees, chairs, deans, and the provost shall be provided to the faculty member being considered for tenure. The faculty member will be provided opportunity to correct any factual misinformation in such recommendations by placing a letter in his or her tenure file at any stage, or up until March 1 to the Provost (November 22 for faculty hired mid-year).
- O. The above procedures at the departmental and college level may be suitably adapted for faculty members who hold interdisciplinary or interdepartmental appointments. The adapted procedures should be recommended by the promotion and tenure committee of the college or colleges involved and approved by the dean or deans and the provost and vice president for academic affairs. Procedures above the college level will be the same as designated above in all cases.

WHEREAS, pursuant to the Acts, the Treasury Board of the Commonwealth of Virginia (the "Treasury Board") is authorized, by and with the consent of the Governor, to sell and issue bonds or bond anticipation notes of the Commonwealth of Virginia (the "Commonwealth") for the purpose of providing funds, together with other available funds, for paying the cost of acquiring, constructing, renovating, enlarging, improving and equipping certain revenue-producing capital projects at certain institutions of higher learning of the Commonwealth and for paying issuance costs, reserve funds and other financing expenses (the "Financing Expenses"), all in accordance with the provisions of Section 9(c) of Article X of the Constitution of Virginia;

WHEREAS, for Old Dominion University (the “Institution”), such revenue-producing capital projects include construction of a New Residence Hall, 221-18101 (each individually, a “Project” and, collectively, the “Projects”); and

WHEREAS, the Treasury Board is proposing to sell and issue bonds or bond anticipation notes pursuant to the Acts for such revenue-producing capital projects, in one or more series;

NOW, THEREFORE, BE IT RESOLVED BY THE RECTOR AND VISITORS OF Old Dominion University:

Section 1. The Board of Visitors of the Institution (the “Board”) requests the Treasury Board to sell and issue bonds (the “Bonds”) or bond anticipation notes (“BANs”) in an aggregate principal amount not to exceed \$55,815,000 to finance all or a portion of the costs of each Project plus Financing Expenses (for each individual Project, the “Individual Project Bonds” or “Individual Project Notes” and, collectively, the “Individual Project Borrowing” and for all Projects, the “Project Bonds” or “Project Notes” and, collectively, the “Project Borrowings”). The Individual Project Borrowings will be identified by amount by the State Treasurer upon issuance of any Bonds or BANs.

Section 2. With respect to each Project, the Board (a) covenants to fix, revise, charge and collect a housing fee and other rates, fees and charges, for or in connection with the use, occupation and services of such Project and (b) pledges such rates, fees and charges remaining after payment of (i) the expenses of operating such Project and (ii) the expenses related to all other activities funded by the housing reserves and housing fees (“Individual Project Net Revenues”) to the payment of the principal of, premium, if any, and interest on the Individual Project Borrowing relating thereto. The Board further covenants that it will fix, revise, charge and collect such rates, fees and charges in such amounts so that Individual Project Net Revenues will at all times be sufficient to pay, when due, the principal of, premium, if any, and interest on the related Individual Project Borrowing and on any other obligations secured by such Individual Project Net Revenues (such payments collectively the “Required Payments”). Each Individual Project Borrowing shall be secured on a parity with other obligations secured by the Individual Project Net Revenues relating to such Individual Project Borrowing (other than any obligations secured by a prior right in Individual Project Net Revenues). Any Individual Project Net Revenues pledged herein in excess of the Required Payments for an Individual Project Borrowing may be used by the Institution for any other lawful purpose.

Section 3. It is hereby found, determined and declared that, based upon responsible engineering and economic estimates and advice of appropriate officials of the Institution, as shown on the Financial Feasibility [Study/Studies] attached hereto as Exhibit A, with respect to each Project, the anticipated Individual Project Net Revenues pledged herein will be sufficient to pay the Required Payments for such Project so long as the aggregate amount of net debt service on the Individual Project Borrowing for such Project actually payable in any bond year does not exceed the amounts assumed in the Financial Feasibility Study relating thereto.

Section 4. The Board covenants that the Institution will furnish the Treasury Board its general purpose financial statements, within 30 days of their issuance and receipt, audited by a firm of certified public accountants or the Auditor of Public Accounts which shall include a schedule of

revenues and expenditures for auxiliary enterprise systems. If Individual Project Net Revenues for any Project are insufficient to pay Required Payments for such Project during such period, the Institution shall provide evidence of a plan to generate Individual Project Net Revenues for such Project sufficient to make such Required Payments in the future.

Section 5. The Board covenants that so long as any of the Project Notes are outstanding, the Institution will pay to the State Treasurer, not less than 30 days before each interest payment date, an amount estimated by the State Treasurer to be due and payable on such date as interest on the Project Notes. The Board covenants that so long as any of the Project Bonds are outstanding, the Institution will pay to the State Treasurer, not less than 30 days before each interest or principal payment date, the amount certified by the State Treasurer to be due and payable on such date as principal of, premium, if any, and interest on the Project Bonds.

Section 6. The Board covenants that the Institution will pay from time to time its proportionate share of all expenses incurred in connection with the sale and issuance of any series of Bonds that includes Project Bonds or Project Notes and all expenses thereafter incurred in connection with the Bonds, including without limitation the expense of calculating any rebate to the United States of the earnings derived from the investment of gross proceeds of the Bonds, all as certified by the State Treasurer to the Institution.

Section 7. The Board covenants that the Institution will not take or omit to take any action the taking or omission of which will cause the Bonds to be “arbitrage bonds” within the meaning of Section 148 of the Internal Revenue Code of 1986, as amended, including regulations issued pursuant thereto (the “Code”), or otherwise cause interest on the Bonds to be includable in the gross income of the owners thereof for federal income tax purposes under existing laws. Without limiting the generality of the foregoing, the Institution will pay from time to time its proportional share of any rebate to the United States of the earnings derived from the investment of the gross proceeds of the Bonds.

Section 8. The Board covenants that the Institution will proceed with due diligence to undertake and complete the Projects and that the Institution will spend all of the available proceeds derived from the sale of the Project Borrowings for costs associated with the Projects and appropriated for the Projects by the General Assembly.

Section 9. The Board covenants that the Institution will not permit the proceeds of each Individual Project Borrowing to be used in any manner that would result in (a) 5% or more of such proceeds being used in a trade or business carried on by any person other than a governmental unit, as provided in Section 141(b) of the Code, (b) 5% or more of such proceeds being used with respect to any output facility within the meaning of Section 141(b)(4) of the Code, or (c) 5% or more of such proceeds being used directly or indirectly to make or finance loans to any persons other than a governmental unit, as provided in Section 141(c) of the Code. The Institution need not comply with such covenants if the Institution obtains the written approval of the State Treasurer and an opinion of nationally recognized bond counsel acceptable to the Treasury Board that such covenants need not be complied with to prevent the interest on the Bonds from being includable in the gross income of the owners thereof for federal income tax purposes.

Section 10. The Board covenants that for so long as any of the Bonds are outstanding the Institution will not enter into any operating lease, management contract or similar agreement with any person or entity, other than a state or local governmental unit, for all or any portion of any of the Projects without first obtaining the written approval of the State Treasurer and an opinion of nationally recognized bond counsel acceptable to the Treasury Board that entering into such agreement will not cause the interest on the Bonds to be included in the gross income of the owners thereof for federal income tax purposes.

Section 11. The Board covenants that for so long as any of the Bonds are outstanding, the Institution will not sell or dispose of all or any part of any of the Projects without first obtaining the written approval of the State Treasurer and an opinion of nationally recognized bond counsel acceptable to the Treasury Board that such sale or disposition will not cause interest on the Bonds to be included in the gross income of the owners thereof for federal income tax purposes.

Section 12. The officers of the Institution are authorized and directed to execute and deliver all certificates and instruments and to take all such further action as may be considered necessary or desirable in connection with the sale and issuance of the Bonds.

Section 13. The Board acknowledges that the Treasury Board will rely on the representations and covenants set forth herein in issuing the Bonds, that such covenants are critical to the security for the Bonds and the exclusion of the interest on the Bonds from the gross income of the owners thereof for federal income tax purposes, that the Board will not repeal, revoke, rescind or amend any of such covenants without first obtaining the written approval of the Treasury Board, and that such covenants will be binding upon the Board so long as any of the Bonds are outstanding.

Section 14. This resolution shall take effect immediately.

Rights and freedoms should always be exercised within a framework of responsible behavior. They should not be used as a vehicle for division. Rather, they should serve as a point of departure from which administration, faculty, and students can work together to continue the advancement of Old Dominion University as an outstanding institution.

  - A. Admissions

Admission to Old Dominion University is open to all qualified students without regard to race, sex, color, age, religion, national origin, veteran status, sexual orientation, gender identity, political affiliation, or otherwise qualified persons with disabilities.

Orderly procedures have been established (see "Grade Appeals" section of the Undergraduate or Graduate University Catalog) through which students may appeal grades judged to have been given as result of prejudice or caprice. ~~IV.~~ III. Student Engagement and Enrollment Services Affairs

A. Freedom of Association

1. Students shall be free to organize and join associations that promote common interests.
2. Affiliations with external or national~~extramural~~ organizations shall not of themselves disqualify student organizations from institutional recognition.

## ~~V. Student Conduct~~

~~The Board of Visitors has the authority to establish rules regulating student conduct and to discipline students who violate those rules. However, in the development of responsible student conduct, the use of the university's disciplinary powers should be secondary to counseling, guidance, admonition, and example. When the preferred means for developing responsible conduct fail and discipline is necessary, fair and order disciplinary procedures shall be established and followed so that students are protected from the unfair imposition of penalties.~~

### ~~A. Standards of Student Conduct~~

1. ~~The University shall promulgate, with significant student participation, those standards of student conduct that it considers essential to the fulfillment of its educational mission and to the protection of its academic community.~~
2. ~~University standards of student conduct shall be published and students may be disciplined only for conduct that violates those standards.~~
