

CROP AND PASTURE SCIENCE

publish.csiro.au/cp

> SCOPE

Crop and Pasture Science is an international journal publishing outcomes of strategic research in crop and pasture sciences and the sustainability of farming systems. The primary focus is broad-scale cereals, grain legumes, oilseeds and pastures. Articles are encouraged that advance understanding in plant-based agricultural systems through the use of well-defined and original aims designed to test a hypothesis, innovative and rigorous experimental design, and strong interpretation.

The journal embraces experimental approaches from molecular level to whole systems, and the research must present novel findings and progress the science of agriculture.

> AUTHOR BENEFITS

- International reach and discoverability
- Indexing in a wide variety of relevant databases
- Professional copyediting for every paper
- Capture impact through citation tracking and Altmetrics
- Authors retain copyright
- Green Open Access with no embargo
- Gold Open Access compliant with major funders
- No page charges
- Rapid online publication ahead of issue release
- Eligible authors receive APC-free Open Access

JOURNAL METRICS

> METRICS

These metrics are shared as a way of quantifying the impact this journal has on the research community. However, they should always be considered in the context of how they are calculated, and we emphasise that none of these journal-level metrics should be used to judge the impact of an individual article or author, or their research outputs.
