

## Recycling Fees List from 1 January 2023

The recycling fees apply to portable and industrial batteries and accumulators (including battery packs), as defined in the 2008 Regulations on Batteries and Accumulators. Stibat reserves the right to make interim changes to these fees based on board decisions.

Category	Types	Recycling fee Per battery, excluding VAT				
		Lithium/ lithium-ion	Lithium LTC*	Lead	NiMh	Others
I	Portable and industrial batteries Single-use (non-rechargeable) and rechargeable <b>up to 50 g, excl. button cells</b>	€ 0,025	€ 0,046	€ 0,016	€ 0,012	€ 0,021
II	Portable and industrial batteries Single-use (non-rechargeable) and rechargeable <b>51 to 150 g, excl. button cells</b>	€ 0,124	€ 0,225	€ 0,087	€ 0,062	€ 0,111
III	Portable and industrial batteries Single-use (non-rechargeable) and rechargeable <b>151 to 250 g</b>	€ 0,247	€ 0,449	€ 0,153	€ 0,109	€ 0,197
	Portable and industrial batteries Single-use (non-rechargeable) and rechargeable <b>251 to 500 g</b>	€ 0,444	€ 0,808	€ 0,194	€ 0,226	€ 0,408
	Portable and industrial batteries Single-use (non-rechargeable) and rechargeable <b>501 to 750 g</b>	€ 0,741	€ 1,349	€ 0,235	€ 0,308	€ 0,557
	Portable and industrial batteries Single-use (non-rechargeable) and rechargeable <b>751 to 1000 g</b>	€ 1,136	€ 2,068	€ 0,276	€ 0,437	€ 0,791
V	Portable and industrial batteries <b>Coin/button cells</b>	€ 0,006	€ 0,011	€ 0,002	€ 0,001	€ 0,003
VI	<b>Portable batteries</b> single-use (non- rechargeable) and rechargeable <b>heavier 1000 g**</b>	€ 2,927	€ 5,328	€ 0,317	€ 0,839	€ 1,519
VII	<b>Industrial batteries</b> single-use (non-rechargeable) and rechargeable <b>heavier than 1000 g</b> (excl. batteries to power electric bicycles)	€ 0,00				
VII E-Bike	<b>Industrial batteries</b> used to power electric bicycles***	€ 1,00 per kg				
VIII	<b>Industrial batteries</b> high voltage used to power electric cars	Auto Recycling Nederland can assist you: <a href="http://www.arn.nl">www.arn.nl</a>				
IX	<b>Automotive batteries or accumulators</b> used to start a vehicle, for lighting or to power the ignition of a vehicle (non- electric)	Auto Recycling Nederland can assist you: <a href="http://www.arn.nl">www.arn.nl</a>				

**Battery pack:** a set of batteries or accumulators, linked together or provided with external packaging, that forms a single complete unit and is not intended to be divided or opened by the end user (definition in accordance with the 2008 Regulations on Batteries and Accumulators). Please note there is a difference between battery packs with or without a shock-resistant casing.

If no shock-resistant casing, but visible cells in a shrink tube, this is considered a composed battery of which the number of cells and chemical system and weight per cell (and not the total weight of the pack) must be stated.

\* Lithium Thionyl Chloride (Li-SoCl<sub>2</sub>) non-rechargeable

\*\* Batteries over 3000 grams are reported as industrial battery

\*\*\* This concerns the weight of the entire E-Bike battery (= see Battery pack)
