

Index for *Texas Medicine*, 2019

Introduction

This index includes three parts: Subject Index, Author Index, and Deaths. Medical terminology follows MeSH (Medical Subject Headings), used for PubMed and other indexes and databases produced by the National Library of Medicine. Non-MeSH terms are those preferred by the author or commonly used within the discipline.

Subject Index

A

Abbott, Greg

maternal health roadblock [2019 legislative wrap-up], Aug p 20

state looks at easing licensure for those with criminal records, Dec p 37

TMA: ruling on ACA offers pathway to improvement (Rounds), Feb pp 16–17

TMB: back on track [2019 legislative wrap-up], Aug p 21

Abdelaziz, Omar

extreme medicine: UTMB medical students learn how to improvise while treating patients in unusual and potentially dangerous situations (photo), Dec pp 21–25

Aboumatar, Sami

clearing the air on cannabis: new Texas laws loosened rules on the use of cannabis oil, creating new challenges for physicians (photo), Sep pp 42–44

ACA. *See* Patient Protection and Affordable Care (ACA)

Accidents, Aviation

deadly plane crash (1977) shines light on value of disaster plans (Pulse), Aug p 9

Accountable Care Organizations

as alternative health facility merger, Feb p 27

out of physicians' hands: TMA seeks to tackle unfairness of quality measures on medication adherence (Quality), Dec pp 30–34

Accreditation

the making of a med school; three new ones are set to open soon, and it's not so easy, Mar pp 26–29

Acquired Immunodeficiency Syndrome

a qualitative approach to understanding HIV-related stress in Texas (Journal), Aug p 4

Adams, Maya

TMA Minority Scholarship recipient (Rounds), Jul p 16 (photo)

Adamson, Adewole

the promise of artificial intelligence: many physicians fear AI could replace them, but it might just make their jobs easier (photo), Oct pp 32–35

Addiction Medicine. *See also* Substance-Related Disorders

prescription for addiction; primary care physicians play a bigger role in fighting substance use disorders, Mar pp 40–43

Adolescents

teen vaping rising (Pulse), Feb p 6

youth tobacco use by the numbers (Pulse), May p 6

Advance Care Planning

getting paid for end-of-life care discussions with patients (Pulse), Sep p 10

Advanced Practice Nursing

AG: CRNAs can't administer anesthesia unless physician delegates it (Rounds), Nov p 14

most valuable team; managing nonphysician staff efficiently can help boost patient care and bottom line, May pp 34–36

respecting the roles: TMA battles another round of scope-of-practice bills while preaching team-based care (Legislative Affairs), Apr pp 17–19

Advantage Allergy Solutions (AAS)

[targeted approach to immunotherapy], Sep p 31

Advertising

regarding MedCom Telephone Answering Services (Letter), Apr p 15

Aerospace Medicine

artifacts: flight surgeon's manual (Looking Back), Jan p 10 (Pulse)

- extreme medicine: UTMB medical students learn how to improvise while treating patients in unusual and potentially dangerous situations, Dec pp 21–25
- last call for intoxicated pilots (Pulse), Jan p 10
- one giant step for physicians; a Texas physician's role in space-race medicine, Aug pp 32–35
- African Americans
