Formal complaints against students of sexual misconduct received in the 2014/15 academic year.

Our historic records do not differentiate between Sexual Harassment, Sexual Violence and other forms of Sexual Misconduct. In future, UCL will be publishing annual data reports on harassment, bullying and sexual misconduct. This will include records from Report + Support, which UCL launched to students and staff on 25 February 2019.

The cases have been counted from 1st October to 30th September.

This document relates to complaints that have been formally investigated under UCL procedures. There are numerous ways to make informal complaints and so they are therefore not recorded centrally.

Table 1: Number of formal complaints about students broken down by gender

Reported party Reporting party	Male To Female	Male To Male	Female To Male	Female To Female
