## **Chapeau**

*We hope to see this section guided by values that help to translate “Leaving no one behind” in practice and social justice, put human dignity and people at the center, take cross-cutting issues into consideration.*

## **Chapter I. Sustainable development and financing for development**

*We suggest including in this section approaches that help to tackle / address inequalities.*

*Highlight the role of partnership, the importance of co-creation, participation of all stakeholders, resourcing mechanisms, equity and accountability.*

## **Chapter II. International peace and security**

*In this section, we hope to see recall international norms and standards.*

## **Chapter III. Science, technology and innovation and digital cooperation**

*We suggest taking digital gap, ethics aspects and accessibility into account in this section.*

## **Chapter IV. Youth and future generations**

*We suggest including an intergenerational approach, give youth voice/a say and space.*

## **Chapter V. Transforming global governance**

*We would suggest to be included reflexion on leadership, how to engage with all members of the society, trust, responsibility, representativity, accountability*
