Chapeau

(Add your concise, concrete, and action-oriented language for the Chapeau)

P.P. International Climate Change Ambassadors is a Non-governmental organization, with the aim of informing, educating and enlightening the public, especially the younger generation school children on Climate Change and Sustainability and the role all can play.

Chapter I. Sustainable development and financing for development

(Add your organization's concise, concrete, and action-oriented recommendations for Chapter 1) At P.P. International Climate Change Ambassadors, we are both intentional and realistic. Therefore, we ensure that any Sustainability development model we introduce must be both practicable and Sustainable, putting into consideration local customs and traditions, yet abiding by best global practices. Because of our economic condition, we understand the pivotal role of finance in sustainable development. As such, we hope to seek international collaborations with wealthy nations and international funding organizations to succeed.

Chapter II. International peace and security

(Add your organization's concise, concrete, and action-oriented recommendations for Chapter 2) The importance of a common course of action in promoting international peace and security cannot be overemphasized. Therefore, if a majority of the nations around the world deliberately agree to imbibe the culture of climate friendly activities, dialogue, mutual respect, and embrace peace and love. Then, we will be a step closer to international peace and security.

Chapter III. Science, technology and innovation and digital cooperation

(Add your organization's concise, concrete, and action-oriented recommendations for Chapter 3) "All fingers are not equal", so they say. This also applies in the areas of science, technology and innovation and digital economy. As a matter of fact, the more developed countries needed to share, carry along, and assist the "developing" nations. This cooperation will be achieved by exchanges, trainings, interventions, collaborations, etc.

Chapter IV. Youth and future generations

(Add your organization's concise, concrete, and action-oriented recommendations for Chapter 4) The youths and the younger generation are the pillars of the future. For us to have a better future hinges on the caliber of youths we have today. So, all hands must be on deck to invest in our youths, groom them for the future we so much desire.

Chapter V. Transforming global governance

(Add your organization's concise, concrete, and action-oriented recommendations for Chapter 5) Transformation has to do with conversion from good to better, and from better to best. In terms of global governance, the transformation will touch on "inclusiveness" in terms of gender, color, creed, and especially the "youths".
